Children's interest in learning doesn't stop during July and August! They need and want something to do during this time, and miss playing with their friends. Typically they also enjoy a change of pace, particularly in the hot weather and we have carefully carved an exciting program to make it fun and enjoyable.

The *Summer Splash* program is specially designed so children can learn in a fun and relaxed atmosphere. The curriculum combines new and stimulating activities along with the full Montessori curriculum. Our one-and-a-half acre school in a residential neighbourhood is natural, quiet & serene enough to feel like a country back yard. There is ample space to play as well as quiet places to work. You ought to see to believe!

Classrooms are designed so children can move inside and out at will. A flexible routine means children have time to explore something new, enjoy a favourite activity, or chat with a friend in the shade.

Visit us and see first hand how we are re-defining preschool education. Contact the office @ 630-978-7786 for more information about Prairie View Montessori's exciting *Summer Splash!*
